Tracking good fish, we sailed the cleanest boundless seas of the world. In pursuit of good taste, we brought the most natural and the purest products to your table.

It is my tremendous joy to see you hold DARDANEL in your hand and associate it with health and trust. Please allow me to let you know that I dedicated my whole life to this very moment...

NIYAZI ÖNEN
FOUNDER

ABOUT US

Since the day Dardanel founded in 1984, Çanakkale, we keep on growing and contributing to the success of Turkey by working passionately. Our main mission is to get people to love seafood by using only Premium quality natural ingredients for consumers to buy with trust.

Tuna fish is a precious and elusive species which deserves awareness and consideration. It is delicious and nutritious source of lean protein with vitamins, omega 3 fatty acids, a fantastic and very healthy food. With over 2.000 employees we are manufacturing with enthusiasm and this distinguishes us from others.

Our mission is to sustain this miraculous protein to the new generations. We source our raw materials only from sustainable sources. Our principal responsibility is to work towards a sustainable industry.

We will continue to work hard to create sustainable and healthy meal solutions with full of love.

EXPORT OVERVIEW

We export to these countries;
USA, Great Britain, Iraq, the Balkans
(Romania, Bosnia, Kosovo, Bulgaria,
Macedonia), Uzbekistan, Malta, Nakhchivan,
Greece, Spain, France.

Export to 29 countries

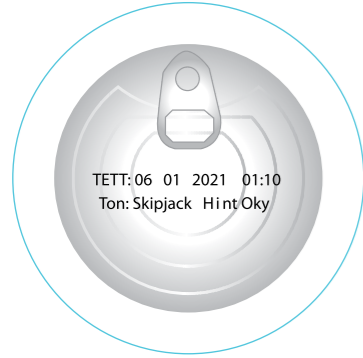

Top Export Countries

* Countries in which we are category leader

SUSTAINABILITY and TRACEABILITY

We think highly of the impact of our products and production processes on the environment and society.

We apply high standards in many areas as well as our material selection to recycling processes. We take many concrete steps to reduce potential risks for sustainability.

Trace Your Fish (2017)

All our fish is traceable. You can discover the story behind your can by entering your can code into our website.

Dolphin Safe (1994)

Dolphin-safe labels are used to denote compliance with laws or policies designed to minimize dolphin fatalities during fishing or tuna destined for canning.

Friend Of The Sea (2013)

Friend of the sea is a Project of the World sustainability organization for the certification and promotion of seafood from sustainable fisheries and sustainable aquaculture.

Marine Stewardship Council (2018)

The Marine Stewardship Council is an international non-profit organisation. MSC recognise and reward efforts to protect oceans and safeguard seafood supplies for the future.

We use recyclable cardboard instead of plastic containers. We cooperate with the municipality to evaluate recyclable materials such as packaging and cardboard.

Map technology extends the shelf and freshness of our products. This decreases our return date, loss and waste is prevented.

CERTIFICATES

The high quality standards we implement in every field from hygiene to environmental protection is confirmed by many certificates. We take great pride in getting AA grade from BRC audits every year.

We continue to earn new certificates while working diligently to provide our consumers with the highest quality and safe products.
